Product Fit Analysis

Fitting the Best Products for Your Goals

Engineering Optimization

Determination of Proper Lighting Levels

Installation Accountability

Project Management to Ensure Success

National Reach

Critical Installation Considerations

- ✓ Experience with the Specific Solution
 - GREENLIGHT uses only bonded and insured installation professionals familiar with your selected solution
- ✓ Capacity
 - Large projects require multiple teams. 280,000 sq. ft. manufacturing and warehousing operation converted in just 4 days
- ✓ Local to the Southeast US
 - While staffed to cover installations nationally, headquartered locally in Atlanta
- ✓ Experience with the Specific Solution
 - GREENLIGHT uses only bonded and insured installation professionals familiar with your selected solution

LED Technology Today

Not Your Fathers LED's

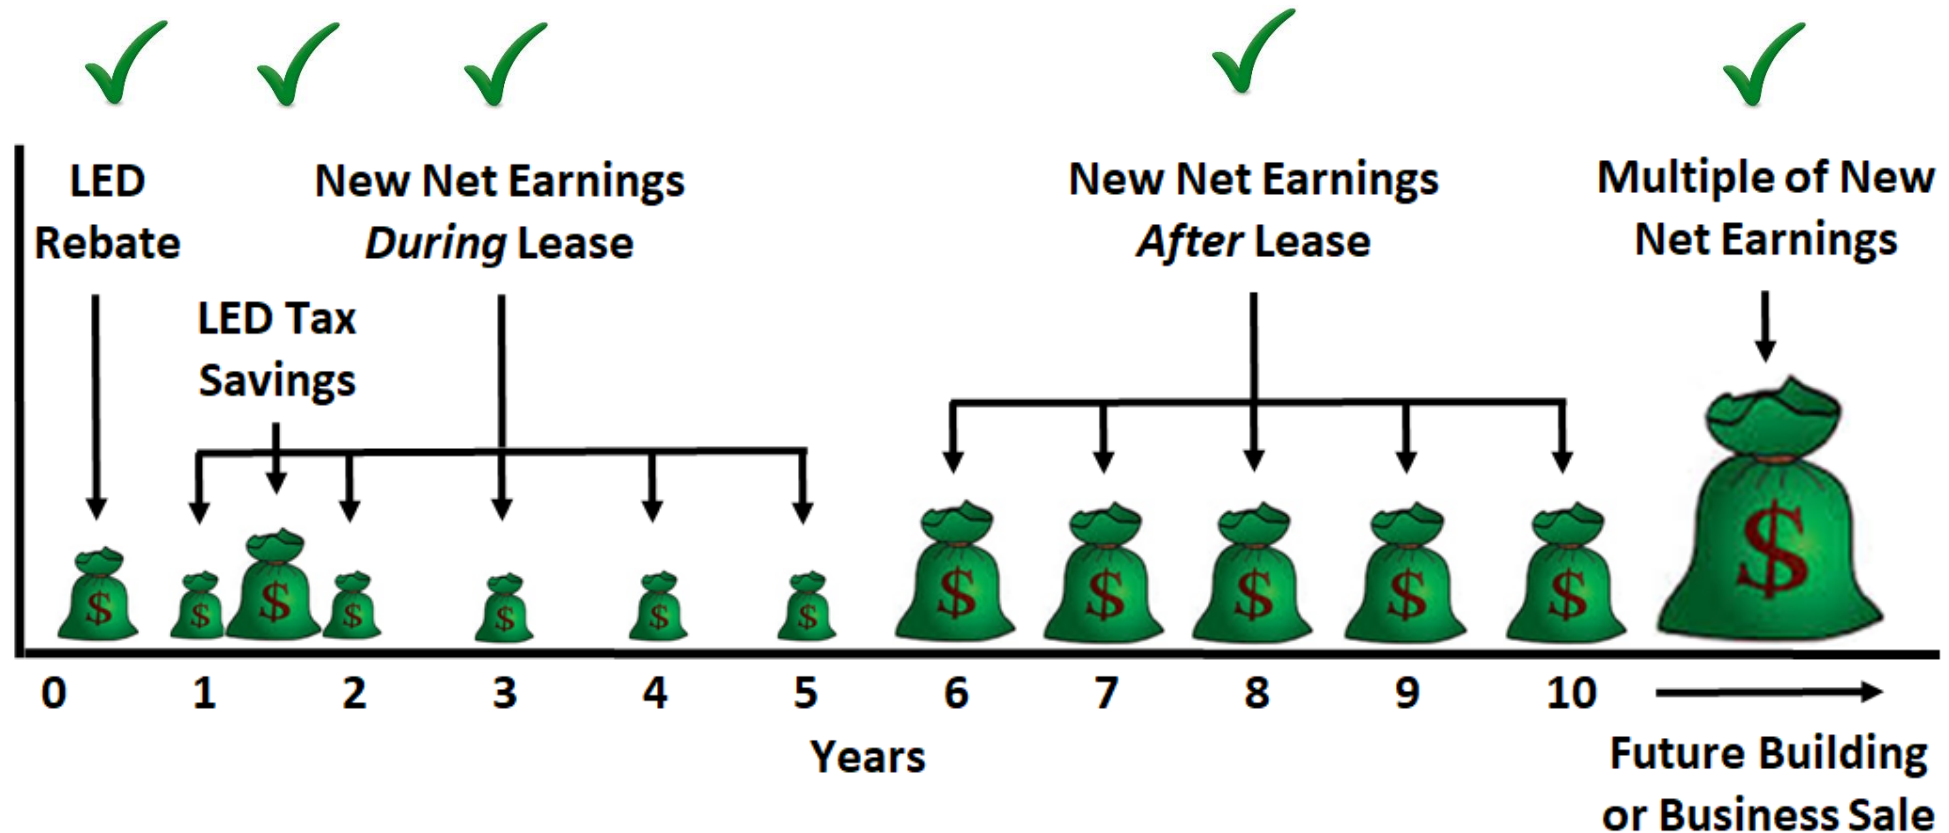

- ✓ Rapid, Regular Advancements
 - Easily 25% greater illumination over T5 and metal Halide technology
 - Freezer and cold temperature solutions
 - High heat environment tolerant
- ✓ Specialty Lights for Warehousing
 - Low refraction angle for top rack lighting
 - Low profile high bay lighting
- ✓ Extra Long Life
 - Important for freezer, caustic, and other hard to access areas
 - Nearly 200 lumens/watt (twice from just five years ago)
 - Up to 300,000 hours UL certified life (34.3 years life running 24/7)

Multiple Streams of New Revenue

Modernizing Your Lighting Produces New Net Income From Rebates, Tax Savings, Net Income During and After the Lease, and with a Future Business or Building Sale

Capital Purchase Example, 280,000 sq. ft. Facility
